We had 34 participants in this year's version of the bench rest school. We had two students from Canada, one from Great Britain and a tugboat captain from Mississippi. The class was appreciative and attentive for all presentations. After a couple of classroom sessions, shooting and reloading was the activity most participants came to the class for and they got plenty of it!!! Sunday we held a regular match and everyone of the students got all shots on target and there were some very respectable targets shot. Feedback from the class has been very positive and we hope that we will see many of the participants at future matches
